**An educational charity and membership organisation for professional craftspeople from South West England, the Devon Guild of Craftsmen seeks to inspire creative excellence through contemporary craft. With a nationally respected reputation, we promote the highest standards of craftsmanship and design and create opportunities for everyone to learn through making.**

At Riverside Mill, our Bovey Tracey base, we exhibit the very best international contemporary craft in our Jubilee and Riverside galleries. We also showcase work at other venues in the region and tour exhibitions nationally. Our education outreach programme to schools, colleges and community groups, Big Hand Little Hand, has been established for over 20 years, offering opportunities for a wide range of people to experience making with a professional.

Riverside Mill craft shop shows a constantly changing display of craft work by our 250 Members. Exhibitions include areas for children's activities and learning and you can also meet the makers and learn more about craft through our programme of talks, workshops, demonstrations and visits. Don't forget too, that while you are visiting Riverside Mill you can indulge in a meal or homemade cake at *The Terrace* café, which prides itself on using local ingredients and suppliers.

To enable all this to happen, we need your support. We rely on donations, our Friends and Best Friends and the proceeds of sales in our shops and café which all go to support the charity and its educational work. Our Raise the Roof Appeal seeks to raise funds to replace our aging roof and preserve our Grade II listed building for future generations.

Follow us or find out how to join us as a Member or Friend on our website [www.crafts.org.uk](http://www.crafts.org.uk) as well as on facebook, twitter and flickr.

Visit our new shop at Cockington Court Country Park and Craft Centre and enjoy a great day out in its beautiful parkland setting in Torquay. See Cockington page in this brochure for more details.

Expressive approaches to quilting by the international **Quilt Art** group

Saturday 14 January - Sunday 26 February

An exciting exhibition of new work by the Quilt Art group. Expressing their own unique voice, each professional quilt maker had the freedom to produce individual quilt work without the restrictions of a set theme or size. Their work is unified by the shared vision of Quilt Art; to extend the boundaries of quilting as an artistic medium and achieve wider recognition of the quilt as an art form. The exhibition will include work by members from the UK, Ireland, Belgium, Hungary, Germany, Denmark, the Netherlands and the USA.

# Blue

**A flow gallery touring exhibition**

**Saturday 10 March - Sunday 22 April**

The colour blue has had great importance throughout craft history, with particular significance to textile and ceramic disciplines. *Blue* explores the different ways current artists use the colour within their practice. The use of the traditional blue and white gives the works particular points of reference, recognising its roots and heritage in Europe as well as in the Far East.

# Engaging the Senses

Saturday 5 May – Sunday 17 June

Presenting work that entices and stimulates, *Engaging the Senses* examines ways that contemporary makers are exploring tactile and other sensory experiences through their work. Our senses of sight, hearing, smell, taste and touch inform how we interpret and relate to the world. Craft offers a unique opportunity to connect with our senses and the natural world through experiencing a relationship with materials from the earth. The exhibition will encompass interactive installations and soundscapes engaging with multiple senses, increasing our awareness of how we interact with and respond to objects. Synesthesia art, made by artists who experience cross-sensory perception, offers insight into mixed sensory responses, such as sounds as shapes, or words as colours or tastes.

Timothy B Layden, mixed media on canvas from *The Shape of Sounds*. A series of sound and art developed by the synesthetic artist exploring how the invisible world of sound can manifest itself visually through an overlapping of the senses.

# Reaching for Gold

**Saturday 30 June - Sunday 2 September**

This exhibition coincides with the 2012 Olympics, providing makers with an opportunity to reflect on the Olympic vision and to push their limits creatively through making, technique and materials. The title complements and follows on from the 2011 Summer Exhibition *A Silver Thread*.

Curated by Devon Guild Member Hilary Burns with Jacqueline Sarsby who is an anthropologist, photographer and oral historian.

# Rivers and Streams

Photography by Jem Southam

**Saturday 15 September - Sunday 4 November**

What is a river? This question led Jem Southam, one of the UK's most respected photographers, to commence a three-year investigation of Devon's River Exe. Southam has produced strong and exciting new work observing and documenting the body of water running from Exmoor through Exeter to the Exe Estuary. Part of Southam's photographic practice involves revisiting sites over long periods of time to capture changes of seasons, atmospheric conditions and effects of time. This ongoing body of work explores the middle and lower reaches of the river's extensive network of streams and confluences leading to its estuary, creating a series of photographs that explore what constitutes a river. Images from the series *Rivers and Streams* were taken on a large format camera. The exhibition includes large-scale prints revealing the minutiae of detail captured by this format, contrasted with intimate 8 x 10" contact prints.

## **Illustrated Talk: Jem Southam**

**Thursday 18 October
